

DesignPro™ Edition Gira inscription software

Specification	Order No.	Packing unit	PS	EAN
 German/English	1423 00	1	09	4010337423003

Features

- Software for inscribing the Gira DIN A4 inscription sheets. Professional software solution from Avery Zweckform. With DesignPro designing and printing labels and cards is child's play. Over 500 Avery Zweckform labels and cards are available as templates. Simply select the desired template, design it as desired, and print it in the quantity required.
- Multi-layout function, i.e. each label can be designed freely.
- Editor for semi-circular, circular, or oval text
- Drawing tools for lines, rectangles, circles, and polygons.
- Barcode editor (more than ten barcode types for industry and trade, e.g. EAN 8, EAN 13, EAN 128, Code 39, Code 2 of 5, Code 128, etc.)
- Graphic import function (e.g. BMP, WMF, TIF, JPG, PCD, PCX, EPS, etc.).
- Counter function (numeric or alphabetical).
- File import via ODBC (e.g. from Access®, Excel®, dBase®, text, etc.) incl. filter and sorting function.
- Creation of user's own databases in dBase® format.
- Automatic read-in of data carrier directories for backups.
- Many practical help functions (e.g. access to system data and time or to character set tables, indication of unprintable margins, anchoring of objects, etc.)
- Grids, help lines, and rulers for exact alignment.
- Free rotation of objects.
- Drag & Drop function.
- CD-ROM.

Notes

- System requirement: Microsoft® Windows® from XP.
